To whom it may concern,

I am writing to give my recommendation for Nadeem Sassin. I taught Nadeem in his sophomore year of high school in Old Colony's Computer Science department. During that year, I watched Nadeem grow as a person and excel in his studies.

Nadeem was awarded an Excellence Cabinet certificate for his hard work. He is able to take criticism in his work and improve it beyond expectation. When it came to studying for the AP Computer Science exam, he took the initiative to go to school on a weekend for various study sessions. He also stayed after school for extra help on his academics when needed.

It is Nadeem's determination to grow and succeed that makes him not only an amazing student, but an amazing person. He has overcome many obstacles and that makes me confident that he will succeed in anything he puts his mind to.

Even though I only knew him a short amount of time, he continues to send me work he is proud of and I am extremely proud of the growth that I see portrayed in his work. That ability to grow makes me confident that Nadeem will be an amazing candidate for any future endeavors.

Sincerely,

Alyssa St. Don
